NO LONGER PEERLESS LEADER

**Bryan Stirs Outbreak
Among the Democrats.**

**Commoner Accused of Trying to
Ruin the Party's
Chances.**

Washington, Aug. 12.—Probably the most significant political event of the past six months is the break between the Democrats in the House of representatives led by Oscar Underwood, and William Jennings Bryan, three times the candidate of his party for the Presidency.

Already astute politicians of both parties are trying to figure on the results of this rupture. They are trying to determine how far its effects will be felt in the campaign next year, and what bearing it will have upon the next Presidential fight.

Some of the politicians are convinced that the systematic attacks upon the House by Col. Bryan are nothing more nor less than the Nebraska's initiatory moves in a fight to capture the nomination for himself next year. He is being accused of creating distrust in the present leadership, in the hope of creating a demand for his own leadership.

There are others who contend that the Underwood-Bryan controversy means merely that the Westerner will bolt the next convention and defeat the election of the Democratic nominee, whoever he may be. They doubt if the "Peerless Leader" has another nomination for himself in mind, but they say he is determined to "rule or ruin."

Then there are a few of the optimistic who believe that the whole thing will blow over, and that the Bryan and Underwood elements of the party will get together by the time the big fight comes. They do not explain just how their hopefulness comes about, yet they remain hopeful.

There can be no doubt that the present Democratic majority in the House is favorable to the Clark and Underwood leadership. The practically unanimous applause given Mr. Underwood when he arose to defend himself of the charge of using his power as chairman of the Ways and Means Committee to protect his personal interest shows clearly enough that the sentiment there is against the Nebraska.

This is the most remarkable phase of the whole situation. There was scarcely a Democrat in the House who did not cheer wildly when Underwood denounced Bryan. And it was this same House that stood on its feet and waved tumultuously when Bryan took his seat on the floor on the opening day of the present session. The applause then was for the man, not the political leader.

Since that time the enthusiasm for the Colonel has unquestionably cooled. And this is because the members of the House and the people back of these members feel that Mr. Bryan is trying to dictate the policy of the party from his position as private citizen.

The recent list of questions which the Nebraska framed and put out to be answered by all possible candidates for the Democratic nomination next year was taken in Congress to be a piece of impertinence. It was ignored where it was not denounced.

On top of all this the Colonel picked out a list of Democrats whom he seemed to regard as qualified to be candidates for the Democratic Presidential nomination. While this list included a host of the prominent leaders of the party, there were a number of big men whom the Nebraska did not mention. Every friend of a "possibility" not included was, therefore, infuriated.

There are some of the things which the Democratic Congressmen resent in Mr. Bryan, and some of the things which have earned the tide against him. No less than three years ago a Democratic Congressman from New Jersey made a bitter attack upon the Great Commoner, and his speech was received in silence. Not a word of congratulation was given him, not a

look of approval was cast in his direction.

Now Representative Underwood rises and in five minutes has the whole Democratic House in an uproar. He tells that body that Bryan has made a false charge, one that completely discredits the Nebraska. And when he does it he gets an ovation that takes the speaker off his feet. Old Bryan followers crowd around him and join in the repudiation of the one undisputed leader of his party.

And so it happens that the managers of both parties are wondering what is to come of it all. They all agree that the Colonel has his friends among the people. To deny that would be folly. He has thousands of friends, and warm friends, too, but he has not the leading men of the present-day Democratic party behind him, and, from appearances, he will not have them should his ambition lead to another nomination.

The effect of his controversy upon the political fortunes of Mr. Underwood is being widely speculated upon in Washington. Already an Underwood Presidential boom has been started, and this before the break with Bryan. Now the House has committed itself to Underwood, not only as floor leader, but as a violent opponent of Mr. Bryan.

Some of the Alabamian's friends therefore believe that this break, coupled with Underwood's masterful handling of the tariff situation in the House, means that he is today the most promising man in his party, whether in or out of Congress. Some of the more enthusiastic believe that he can win the nomination of the Presidency if he conducts himself in the regular session in December as he has in the special session, and he will be in the same rank with Woodrow Wilson, Judson Harp, and Eugene Foss.

Whatever else the present situation has developed it has demonstrated the fact that William Jennings Bryan is no longer the "peerless leader" of his party.

Read Carefully.

It is necessary that we have a photograph and cuts to be used in our Big Industrial Edition in this office just as soon as possible. Do not put off getting them until the very last minute, but attend to the matter now.

Compliments Langley.

The Cincinnati Commercial Tribune has the following compliment to Congressman Langley in a recent issue: "Congressman John W. Langley, who managed O'Rear's fight in the primary and who will manage it in the campaign, developed qualities of leadership of an unusual character during the convention. He is being prominently spoken of for United States Senator in the event the legislature is Republican on joint ballot. That he will make a worthy one is conceded. He is making a brilliant record in Congress and he has made the Tenth district solidly Republican. As an organizer he has few equals, and due to his work in recent years and his management of O'Rear's campaign, he is being boosted strongly both for United States Senator and for Governor, the latter four years hence. That he will rise in the political world, no one questions, and he is deserving of whatever honors may come to him."

**Our Big Industrial Will Be
a Great One.**

**Will Contain Interesting Articles
and Will Require One Ton of
Fine Book Paper.**

Some idea of the magnitude of our Big Industrial Edition can be had from this simple statement: It will contain over one hundred illustrations; over one hundred and fifty industrial, educational and biographical articles, and requires nearly ONE TON of fine book paper to print it. Of course practically EVERY business and professional man in Ohio county will be represented in it, and it will do more to Boom Hartford and Ohio county than anything ever before attempted in this section of Kentucky.

Rev. G. J. Bean Dead.

A pall of sadness went over Hartford when it became known late yesterday afternoon that Rev. G. J. Bean was dead. For five years he has been an invalid but was able to walk around his room at the home of his daughter, Mrs. J. H. B. Carson, and sometimes able to get up town. For several weeks he had gradually grown worse and especially for about a week. Yesterday morning it was seen that the end was near and he passed away at 4:22 Thursday afternoon.

There is no one in the entire county better known than Rev. Bean. He has been one of the most active men in the history of the county, in business and in the ministry. He moved to Hartford from Goshen in the fall of 1876 and has resided here continuously. For years he ran a blacksmith shop and undertaking establishment, and it was only until two years ago that he dropped the latter, having long since quit the blacksmith business.

Not only was he active in business life, but his influence and work has been felt all over the county in his ministerial capacity. He began preaching in 1861 and for years did active work. Only a few months ago he married a couple. His labor for his Master was always first with him and next came the fraternal relationship of the Masonic lodge of which he had been a member for nearly fifty years.

Rev. Bean was born on Sept. 6, 1823 therefore was nearly 88 years of age. On Oct. 17, 1844 he was married to Mary J. Acton and to this union there were born eight children as follows: Mrs. Martha Ross, Mrs. Josie Duke, Mrs. J. H. B. Carson, H. B. Bean, J. E. Bean, L. B. Bean, Marvin Bean, and T. H. Bean. Nov. 21, 1897 he was married to Sarah Francis Hocker, who died several years ago. To this union was born one son, S. M. Bean. He also leaves one brother, Noble Bean, of Sulphur Springs, and 22 grandchildren and 29 great-grandchildren.

FUNERAL TODAY

The funeral services will be conducted this morning at the Christian Church at 10 o'clock. The services will be conducted by Rev. Virgil Elgin, pastor of the Hartford Methodist Church, and the Hartford Masonic Lodge. Interment will follow at Oakwood cemetery.

Big Fair Association.

Lexington, Ky., Aug. 12.—The Bluegrass Fair Association today heard and will consider a proposition to organize a \$500,000 corporation to give the biggest fair in the United States. The company proposes to do anything yet attempted in this country and to make the exhibition an annual affair. The matter will be further discussed at a future meeting of the directors.

The plan is the idea of Ed A. Tipton, recent purchaser of the present fair grounds. It is thought he will not grant the association use of the grounds for another fair, since the proposed company will buy other grounds for their exhibition.

FARMER NO BUSINESS MAN

**Neglects Mercantile Side
of Agriculture.**

**Addresses Congress of Producers
in College, Tex., Praising
State's Advancement.**

College, Tex., Aug. 15.—No state in the Union is making such rapid headway as Texas in agricultural production, said B. F. Yoakum, chairman of the Frisco lines, in an address to the Texas Farmers' Congress yesterday. His speech in part, follows:

There are in Texas one and one-half million people engaged in producing from the soil. Texas has more to gain than any other state by improved conditions in marketing. The farmers do not get as much as they should for their products and no one can improve this but the farmers themselves. According to government reports, the producer receives 46 cents for products of the farm for which the consumer pays \$1.

Last year's agricultural products were worth \$9,000,000,000 to the farmers. The government seed farm values in getting figures for this total. Assuming that the farmers kept one-third of the products for their own use the consumers paid more than \$13,000,000,000 for what the producers received \$6,000,000,000.

The cost of getting the year's products from producers to consumers amounted to the enormous sum of \$7,000,000,000. The real problem to deal with is not high cost of living it is high cost of selling.

The industrial exports are increasing over agricultural exports at the rate of 7 to 1, because factory products are marketed in a more business like way than farm products. The United States is exporting \$2,000,000,000 worth of goods a year. In the last twenty-five years our agricultural exports have increased 60 per cent. while our commercial exports have increased nearly 400 per cent. This is certainly a bad showing for the farmers. It is plain rural development has not kept pace with manufacturing and city growth.

There may be reasons for this, but there is one which is more important than all others: our long neglect of the business side of farming. The late S. A. Sap, who had charge of farm demonstration work in the Department of Agriculture, and who had more to do with the recent agricultural development in the south than any one man, used to say one-eighth of successful farming required scientific knowledge, that three-eighths was an art and the remainder was simply business.

The business end of husbandry has been sadly neglected, and that is the chief reason why agricultural growth makes such a poor showing in comparison with other national development.

The farmers of this country, to receive better prices, do not have to experiment with untried theories. They only have to copy what others are doing successfully. For instance, the people of Denmark thirty years ago received \$12,000,000 for their butter, eggs and bacon. Then they began the organization of market societies.

Now the same character of products brings in over \$100,000,000 a year. Nearly all their dairy products are marketed through co-operative creameries and other egg export societies have 25,000 members. There is no such talk of high cost of living in that little country because they have a system of economical marketing. The farmers there have organized under just methods. The commercial waste in the distribution of farm products is reduced to a minimum. They share in the profits of economical marketing.

We know that all farmers are not able to have their own creameries. Therefore a community of farmers got together to build and operate one for the convenience and profit of all. The creamery is the concrete unit around which will be constructed the neighborhood co-operative market.

The government should assist in finding a way for better farm market

ing. There should be a market bureau of the agricultural Department devoted to accumulating and distributing information on best methods and best markets for selling. The government should spend some money to demonstrate proper marketing, just as it is doing in the development of good roads work.

The Good Roads Department has been brought up to such a high state of efficiency it is estimated there is being spent \$1,000,000 a day in the improvement of our public highways. This is good work.

The government can demonstrate proper market facilities just as it is now demonstrating the values of different soils for production. The government which maintains an expensive and efficient consular service to aid our export trade can afford to expend a few dollars to better the marketing of eggs so that millions will not be destroyed every year because they arrive at the city market in bad or half-bad condition.

WE WANT TO PUBLISH, IN OUR BIG INDUSTRIAL EDITION, A NUMBER OF THE FARM HOUSES IN OHIO COUNTY. IF YOU WILL FURNISH US WITH A PHOTOGRAPH OF YOUR FARM HOME, OR BUILDINGS, WE WILL HAVE AN ENGRAVING MADE, AND CHARGE YOU FOR IT ONLY WHAT IT COSTS US.

BAIZETOWN.

Aug. 14.—Crops are looking fine since the rains.

The residence of Aunt Batzy Ann Embry was destroyed by fire Sunday morning. No insurance.

Mr. G. N. Baize and wife and little son Nolan, visited Mr. and Mrs. Walton Baize, McHenry, Ky., from Friday until Sunday.

Mr. Granville Morris, Renfrow, Ky., passed through town Sunday.

Mr. Odie Baize visited Mr. Delmer Stewart Monday evening and enjoyed a watermelon supper.

Several from this place are attending the meeting at Arnold, Ky. They report large crowds and good meeting. Mr. J. J. Wilson, of Selet, was in town last week.

Mr. Solomon Decker, from Oklahoma visited Mr. and Mrs. A. H. Stewart a few days last week. He reports great damage in his State by hot winds. He says the hot winds struck there in stripes, and that the corn on one side of the road be burned up while on the other side would not be damaged.

Mr. Caleb Green and Leslie have moved their mill near town and will be ready to work in a few days.

Remember This.

If you intend having a photograph taken to be used in our Big Industrial Edition, whether it be of yourself, your residence or your place of business, remember it must be taken not later than Thursday, August 24th, or it will be TOO LATE for publication. ARNOLD.

August 12.—Health in this community is very good at this writing.

The corn crops look fine since the recent rains. The yield will be above the average.

Mr. Harvey Daugherty, traveling salesman for the Stratton & Trestegge Hardware Co., was in Morgantown, Butler county, this week calling on the merchants. He says trade is good for this season off the year.

A camp meeting is being conducted at this place by Rev. W. L. Winchel and Rev. John Colard. They are having quite a success, there have already been about 15 conversions and there are good prospects of several more. The meeting has only been in progress one week.

Mr. Roy Cook has moved to Flint Springs, Ky. We understand he is going to engage in the merchandise business. His many friends wish him much success.

Squire Mack Cook and wife visited Mr. Cook's parents Friday, near Hancock, Ky.

CROPS ABOVE THE AVERAGE

Chicago Banker is Optimistic.

**Makes Investigation of Business and Says it Will
be Better.**

Chicago, Aug. 12.—"The country is all right, the calamity howlers are all wrong." This, in brief, is the opinion of George M. Reynolds, president of the Continental and Commercial National Bank of Chicago, as the result of a wide personal investigation of the agricultural and industrial conditions throughout the United States. The opinion is set forth in a publication just issued by the bank. It not only is a report of Mr. Reynolds' personal observations, but it is an epitome of the sentiments of scores of bankers, railroad officials, heads of industrial corporations, and business men throughout the country, to whom Mr. Reynolds sent letters of inquiry.

In the general response to the inquiries Mr. Reynolds sees a general tone of marked cheerfulness, moderate satisfaction with present conditions and confidence in the future. The report is presented as a fair index to conditions in the separate geographical divisions and the country as a whole, as given by men most closely in touch with conditions.

GIVES REASONS FOR OPTIMISM.
The main reasons for the optimistic sentiment of Mr. Reynolds report are as follows:

"The crop review finds an aggregate considerably better than the ten-year average. Certain cereals have been injured materially by the weather, but the aggregate is good. The general business review finds no reason for fearing a longer continued depression. Some of the industries are marking time with last year, others are picking up rapidly. Others still affected by the depression look forward to improvement and all admit the period of partial stagnation has done much to lower operating costs and teach an economical administration neglected in the more prosperous days.

"The banking situation is clearing. The heavy excess of loans over deposits has been cut to half its proportion eighteen months ago, and this so quietly that alarm has not been apparent. Individual deposits are up saving deposits are on the increase. The rush to speculation is diminished. The foreign trade balance is vastly improved recent decisions have removed disturbing uncertainties.

"The business as well as the bank in interests are awake to the need of currency reform and show sympathy with the Aldrich plan or some substitute formed on the same fundamental points. In some quarters it is believed this will be a 1912 campaign issue unless Congress takes it up during the coming session."

Will You Try a Plat of Alfalfa at Our Expense?

Would you try a plat of alfalfa, if we were to furnish the seed without any cost to you? A large number of farmers in this county would raise alfalfa, if they knew that it could be grown profitably on their soil. Every farmer, who is a reader of this paper, may try a small plat of alfalfa, at our expense.

We have made arrangements with the Farmer and Stockman, of St. Louis, whereby we can offer any of our readers enough alfalfa seed to sow 1-10 of an acre. If this seed grows and your soil is found to yield alfalfa profitably, next year you can grow it as extensively as you desire. You can either buy seed and sow a large plat, or you can save enough seed, from the test plat to increase the acreage.

How to Get the Seed.

Send us \$1.75 for our paper one year, the Farmer and Stockman one year, and the People's Popular Monthly one year and we will send you enough alfalfa seed to sow 1-10 of an acre, absolutely free of charge. When you remember that alfalfa seed usually retails for more than \$20.00 per bushel, you can see how liberal this offer is. We guarantee this seed to be the very best on the market and entirely free from weed and dodder seed.

When you sow it you are sure of having a quality of seed, which will enable you to make a thorough test of your soil. From time to time we will publish articles in our paper on how to prepare the ground and sow the seed to insure a perfect stand of alfalfa. Alfalfa seed should be sown in Kentucky any time between August 1st and September 25th. You should therefore place your order with us at once.

The seed will be mailed direct to you from the the Farmer and Stockman in St. Louis which will insure prompt delivery.

Our paper needs no introduction to the farmers in this county. The Farmer and Stockman is the leading farm and stock paper in the nation. The People's Popular Monthly is one of the best home monthlies in the country.

Send us in your subscription at once, you will never have another opportunity like this to get absolutely pure alfalfa seed, free of charge.

A Strange Story.

Argyle, Mich.—Mrs. Wm. H. Carson in a letter from Argyle, says: "I was almost wild with pain in my head, and other severe pains from womanly troubles. After using Cardui, I obtained great relief. Further use of Cardui raised me from my bed of agony. Cardui saved my life when nothing else would help me". Whether seriously sick, or simply ailing, take Cardui, the woman's tonic. It relieves pain, regulates irregularities, builds weak, nervous women back to health. Ask your druggist about it. B-24

HOUSE PLANT FERTILIZER.

Many housewives thoughtlessly throw away the bones that accumulate in the kitchen when these are just what are needed for the health of their plants. Burn the bones in the second hole of the range, and when quite white pound them to a fine powder. Mix a teaspoonful or so (according to size of the pot) in the soil around the plants. This powder contains potash salts, which furnish an excellent fertilizer for the plants.

TO CAN SLICED CUCUMBERS.

Pare and slice large cucumbers; let them stand over night in a weak salt water; in the morning drain off all the water carefully; slice in some onions as you would for table use. Pack the cucumbers and onions well in glass jars. Pour over hot a mixture made in the following way: To each pint of vinegar, one pint of sugar (vinegar not too strong), all-spice and pepper to suit taste. Seal tight and when opened will be the same in December as if just plucked from the vine.

OLD APPLE CUP.

Apple cup is an old English beverage which is popular with old-fashioned communities. Cook half a dozen sour apples which have been cut into pieces without peeling, with half a pound of raisins, a large bay leaf, a small piece of cinnamon and the grated rind of three lemons. Add two quarts of cold water. When the mixture boils add another two quarts of cold water and cook covered for half an hour after the simmering begins. Then strain the liquor through a fine sieve or bag, add the juice of the lemons and serve with cracked ice.

COLD BONE CHICKEN.

There are a good many people who find an entirely cold meal unsatisfactory and, as they claim, indigestible. It is hard to imagine that any dish eaten with a plentiful dressing of olive oil can prove indigestible, but it is perhaps wise occasionally to add something hot to the cold lunch or night meal. An appetizing dish is cold bone chicken, the canned variety, served on lettuce leaves and garnished with slices of hot bacon, and often a cold meal is better appreciated if it is preceded by a hot, thin soup.

The American housewife has always an abundance of ice, and there is such a number of excellent canned dishes to be obtained in this country that with a little thought hot weather dishes should be varied and tempting.

FAT AND OBESITY.

In regard to the fruitarian diet, one physician considers that the amount of fat in the daily regime is of the greatest importance, as it affects not only temporary health, but is a vital factor in the building up of a permanent healthy physique.

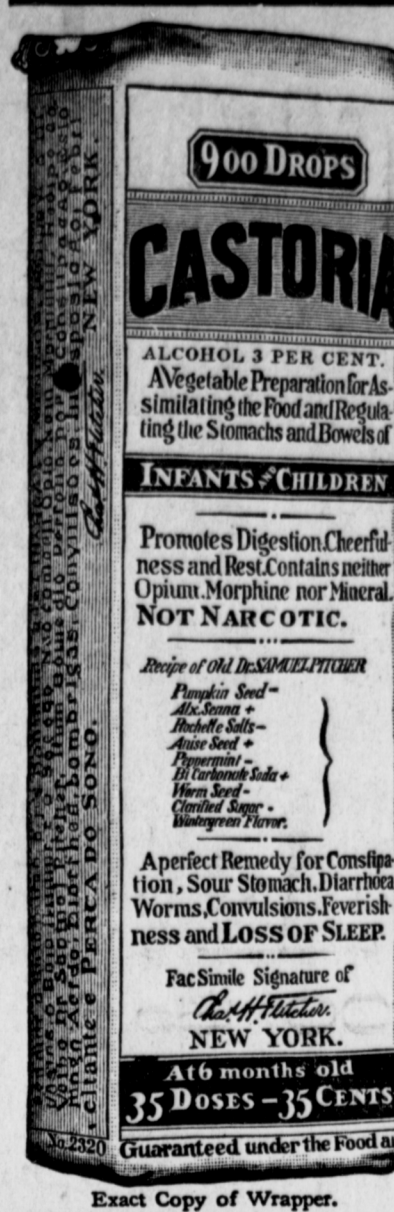

Fat in the fruitarian diet can be taken in several forms, such as nuts, olive oil, butter, cream, maize, oatmeal and the yolks of eggs. Very few people know the value of maize meal, although this article of diet contains a high proportion of fat. He adds that one fallacy that prevents many people from taking fat is the diet that it will add to their adipose tissue, but obesity is caused through an excess of starchy matter which can not be assimilated, and is not the result of taking too much or too little fat. The only real cure for obesity is by dealing with those organs of the body whose function it is to get rid of waste tissue.

INDIGESTION.

A book on "Diet in Relation to Age and Activity," remarks that what is popularly termed "indigestion" is rarely a disease in any sense of the word, but merely the natural result of the errors in conformity to the eating habits of the enterprise to undertake a trial of simpler food than those around them consume probably determines the continuance of their unhappy troubles.

In many instances it must be confessed that the complaint, if so it must be called, results from error, not in the quality of the food taken, but in the quantity.

As commonly employed, the word "indigestion" denotes, not a disease, but an admonition. It means, however, that the individual thus admonished has not yet found his appropriate diet that he takes food unsuited for him, or too much of it. Indigestion, therefore, does not necessarily, or indeed, often require medicine for its removal. Drugs, and especially small portions of alcoholic spirit, are often used for the purpose of stimulating the stomach temporarily to perform a larger share of work than by nature it is qualified to undertake; a course which is disadvantageous for the individual if persisted in.

"O'Rear, the people and victory"
is a good slogan which was started
by The Louisville Herald.

Except for a few phrases on national
issues the Democratic Convention

might as well have adopted the Re-
publican platform entirely.

Judge O'Rear's speech at Elizabeth-
town last Monday was a masterly ef-
fort and will ring throughout the
State from now until the November
election.

Henry Watterson gave the Demo-
cratic delegates to understand that
he is not dead by any means. His
influence over the Democratic party
of Kentucky is greater than that
of any other man.

The article contained in our last
week's issue concerning Judge L. L.
Bristow, Republican nominee for Lieut-
enant governor, has been widely cop-
ied by various newspapers of the state
showing a keen interest in the person-
ality of candidate Bristow.

The only real way to determine
how best to cast your vote at any
election is to hear and study both
sides of the question, treating each
contender in a fair and impartial
manner. This is all the Republican
candidates ask of the voters of Ken-
tucky this year.

Judge O'Rear addressed a letter to
each of the Democratic and Republi-
can editors of the State suggesting
that he have their co-operation in
making this campaign one noted for
its high character and freedom from
personalities or abuse. He has been
greatly commended for his act by
many editors of Democratic newspa-
pers.

The State Democratic Convention
was almost as noisy as the celebrated
Music Hall meeting, and at times it
looked as though it would refuse to
hear ex-Governor Beckham speak in
defense of the State platform which
he reported. He was met at almost
every sentence by hisses and boos
from the large element of whisky
people in the Convention.

Why did the Democratic State Con-
vention refuse to denounce the elec-
tion of Senator Bradley in the plat-
form if he was elected by fraud or
corrupt methods? After all of the
denunciation of Judge O'Rear for
his statement that Senator Bradley's
election was without stain, the dele-
gates to the Democratic State Con-
vention uttered not a word upon this
subject. They well knew that any
declaration of this kind would con-
vict their nominee for Governor and
also their nominee for Railroad Com-
missioner in the Second District. Now
it is time for the local press to close
up on this incident.

It was clearly evident to those who
were in attendance at the Democratic
State Convention last Tuesday night
that a majority of the delegates
were opposed to the county unit
plank, and Mr. Watterson's substi-
tute would have been adopted except
for the statement made that the
candidates on the Democratic ticket
desired a plank similar to the Re-
publicans. When called upon to do
so by ex-Congressman Kimball, how-
ever, Mr. McCreary refused to come
forward and personally stated that
he desired this plank and his reasons
for desiring it.

The Democrats should either bring
forward some proof to show that
Senator Bradley was elected by cor-
rupt methods or they should forever
hold their peace. The bolting Demo-
crats did just what The Courier-
Journal told them to do, and some
of them voted for Mr. McCreary.
Several of them, notably Honorable
Billy Klair, have been rewarded by
nominations for important offices. Mr.
Klair is now the nominee for Railroad
Commissioner in the Second District.
Was he paid to bolt Beckham, or did
he simply follow the advice of the
Courier-Journal, the great apostle of
Democracy in Kentucky?

Mr. McCreary demonstrated his
usual desire to evade taking sides
on any important question when he
refused to advise the Democratic
Convention how to decide on the
county unit question. His statement
that he would be satisfied with any-
thing that the delegates would
characteristic, especially as he fol-
lowed it up with a statement that the
people seemed to desire it. It has
been said of Mr. McCreary that up-
on one occasion, when the money
question was rampant a few years
ago, while making a speech he said
with great earnestness: "If free sil-
ver at the ratio of 16 to 1 is best
for my people, then I am for it.
If upon the other hand the gold
standard is best for my people, then
I am for it. Now let no man say
that James B. McCreary has not
stated his position upon the money
question."

Henry Watterson abhors everything
that smacks of liquor to such an ex-
tent that his sensitive spirit was
greatly outraged because the Republi-
can State Convention was held in
what he termed a beer garden, not-
withstanding the city of Louisville
provided the place and invited the
meeting. Now he is again greatly
disturbed because he says the Repub-

licans of Louisville selected a man
for campaign chairman who makes
barrel and keg staves and he alleges
that some of these staves are used
for the purpose of making recepta-
cles to hold the beer. No doubt Col-
onel Watterson takes his in bottles
and objects to its being ruined by
contact with such unclean material as
wood. It is reported that the Col-
onel in addition to his charge that all
farmers are night riders, is about
to issue a broad side against them
claiming that they are going to
O'Rear in droves and that O'Rear is
thereby in some way connected with
the whiskey people, because the farm-
ers produce the corn from which the
whiskey is made. It seems that Mar-
se Henry is having a hard time proving
that O'Rear is an enemy of the State
because he is too much in favor of
temperance and at the same time
that he is insincere because he is be-
ing supported by somebody who is
remotely connected with the beer or
whiskey interests.

Watterson on Committee to Decide on Mint Juleps.

Washington, Aug. 12.—Representa-
tive Ollie James, of Kentucky, and
Dr. Harvey W. Wiley, Government
Pure Food Expert, who with Henry
Watterson, of Louisville, were named
as a committee to settle an alleged
\$2,000 bet as to the merits of a mint
julep, had interviews today touching
that famous beverage.

The utterances of Mr. James, popu-
larly supposed because of his place
of residence to be ex cathedra, set
forth that a mint julep should be
mixed in a silver cup, a lump of suga
in the bottom, with a lump or two of
mint. Next comes cracked ice filling
the cup to the brim. The ice must
be stirred as it is put in thus crush-
ing the mint a bit and putting a fine
frost on the outside of the cup, an
ornamental feature highly regarded.
The stirring must be done with a
silver spoon if the true Kentucky
ideal is to be gained. Then the
whisky is poured in and the wonder
is completed.

It happens that in Dr. Wiley a tea-
totaller was secured as a judge. Dr.
Wiley said if he was called on to
produce a mint julep he would pro-
cure some mint, look up some Wash-
ington bartender and ask him to
make a julep.

CUPID HITS EMPLOYEE OF THE REPUBLICAN

**Miss Nellie Woodward and Mr.
Arthur Petty Married in
Louisville, Wednesday.**

A great surprise was sprung on the
Hartford people Wednesday after-
noon when a telephone message was
received from Louisville announcing
the marriage of Miss Nellie Wood-
ward and Mr. Arthur Petty. The
surprise was all the greater for the
reason that only a few knew that
either Miss Woodward or Mr. Petty
were in Louisville that day. For
several months Miss Woodward had
been in Burksville, Ky., where she
had a good position as stenographer
and only a few friends knew of her
going to Louisville.

Several days ago Mr. Petty asked
for a few days leave of absence
from his duties at The Republican of-
fice stating that this week he wanted
to take his vacation. He was
very persistent in wanting his va-
cation this week but nothing more
was thought of the matter.

The ceremony took place at noon
at Louisville at the home of the
bride's brother, Mr. Paul Woodward,
who has resided in that city for
some time. Mr. and Mrs. Petty are
expected home this afternoon and
will be at home to their friends. Both
are extremely well liked by every-
one. Mrs. Petty is the daughter of
Mr. and Mrs. W. T. Woodward, of
this city, and is a splendid young
lady. Mr. Petty is the son of Mrs.
R. R. Wedding and is a printer of abili-
ty. For several months he has been
connected with the mechanical force
of The Republican. The many friends
of the young couple will join The
Republican in extending best wishes.

Hugged too Much.

St. Louis, Mo., Aug. 12.—Philip H. Nicholson tried to suicide by cutting an artery in his wrist. Revived in a hospital, he explained:

"I'm fond of my wife and I want her to be fond of me, but there's a limit. My wife is too affectionate. She wants to sit on my lap continually, and hug and kiss me. If I

light my pipe she complains of the smoke. If I stand up she puts her arms around my neck and kisses me 'till I can scarcely breathe. It got on my nerves.

"When I took a trip I wrote her daily and she quarreled with me because I didn't write three times a day. I hope she will show me a little more consideration now."

An Institute Manual will be mailed with this programme to each teacher of the county. In the Manual you will find much information relative to the work assigned. "I was troubled with heart disease, and after reading about Dr. Miles' Heart Remedy, I got a bottle. Before I got the Heart Remedy I had to sit up most of the night, and felt very bad at my stomach. Whatever I would eat made me feel worse, and my heart beat very fast. But thanks to Dr. Miles' Heart Remedy, I am all right now. I eat good, sleep good, and feel like a new man, although I am almost 68 years old. I have been a soldier in the late war of the rebellion, and was badly wounded." CHARLES HOLMES, Private Co. B, 54th N. Y. Infantry Volunteers, Walton, Delaware Co., N. Y.

Dr. Miles' Heart Remedy is kept in thousands of homes as a friend always to be relied upon in time of need.

BASEBALL NEWS.

Two interesting games were pulled off at Taylor Mines Saturday before large crowds. Taylor Mines took Rob Roy into camp in the morning game 11 to 7 and Beaver Dam defeated Hartford in the afternoon game 11 to 4. The score of the Hartford and Beaver Dam game follows:

	1	2	3	4	5	6	7	8	9	T
Hartford	2	0	0	0	2	0	0	0	4	4
B. Dam	0	0	0	2	0	2	3	0	4	11

Batters, Bartlett and Anderson, Reynolds and Thorp.

Taylor played a good game in night for Beaver Dam.

ELGIN, COULDN'T LET 'EM GET PAST.

Elgin played an errorless game at first for Hartford, going after everything that came his way.

With the exception of a bad heavy Robertson played a nice game at third. This came in the ninth when after picking up a bad grounder his low throw to second spoiled a nice chance for a double.

The playing of the Hartford team Saturday was far below its own standard. Not only the fielding but the batting was also below par. A lack of "ginger" was noticeable.

Matt Hunter must have failed to get up steam. At any rate he was not in the game and his stick work was sadly missed. J. Taylor was also out of the game and his vim was greatly needed.

The same teams will cross bats at Hartford to-morrow. This should be one of the best games of the season. Everybody come out and root for the home team.

TROPHY IS WON BY COMPANY H.

Hartford's Company of Soldier
Boys Awarded Silk
Flag.

Following an order issued at the Adjutant General's office to the effect that a silk flag be given to the company showing the highest degree of proficiency at encampment, in each of the three Kentucky Regiments, came another order stating that Co "H" be awarded the trophy in the Third Regiment, Company "A", of Bowling Green and "D", Hopkinsville were mentioned in the orders as being 2nd and 3rd honor companies, respectively.

The Second Ky. Mountain Regiment, was awarded a flag, as token of honor, for being the most proficient Regiment in the State Guard.

These prizes are held by the organization winning them for a period of one year only, when they will again be awarded to the organization deserving them.

The "boys" of Co "H", rightfully deserve credit for bringing this honor to Hartford, for never did a bunch of militiamen soldier more enthusiastically to win, and from the first day in camp to the sounding of "Retreat" on the last day, "Let's win the Flag" was their slogan. The company never left Hartford with a more enthusiastic, hard working bunch of non-coms, nor a more eager, obedient set of enlisted men than this year.

Neatness, cleanliness and discipline was the routine, from the cooks in the kitchen; who's mastery of cleanliness and order, would cause many a good house wife to look on with envy, to the "rookies" in their quarters, where if mother should appear before inspection she would be amazed, and ponder at the dormant faculties just developed somny, and have him report as assistant high house-keeping, on arrival at home.

The company also did excellent work

on the rifle range, qualifying, three expert riflemen and twenty one marksmen which again gives them first place in the regiment. Capt DeWeese was selected as a member of the State Rifle Team and together with the other members of the team will leave Orell, Friday for Camp Perry, Ohio where they will participate in the National Shoot Aug. 23rd to 27th inclusive.
